1. Executive Summary & Thesis

SolarHarvest Cooperative purports to operate rural solar mini-grids in Mozambique. Due to critical evidence gaps, unverified concession licenses, and Grade F reliability, the investment committee recommendation is PASS.

2. Founder & Capability Assessment

Founder background cannot be independently verified across regional operator databases or professional registries.

3. Startup Product & Operational Assessment

Unsubstantiated subscriber and revenue metrics; lacks physical hardware telemetry validation.

4. Market Dynamics & Competition

Off-grid energy market opportunity is significant, but startup lacks verified license to operate.

5. Risk Factors & Mitigations

Critical governance, legal, and evidence integrity risks.

6. Final Investment Recommendation

PASS — Decline deal. Critical verification failures and unverified concessions.

7. Actionable Next Steps

- Issue formal pass notification
- Archive deal in intelligence repository under PASS status
